HIGH END DRY/ READY MIX MORTAR PLANTS

Available in

- Tower type
- Horizontal (With in the shed)

**EFFICIENT TOWER DESIGN
HIGH END AUTOMATION**

**WORLD CLASS MACHINERY
STANDARD LOW CAPITAL COST PLANTS**

Plant Capacities

5 TPH - 30 TPH

Salient Features

- Multiple models
- High-end automation with operational controls
- Production management data system.
- High accuracy and Constant quality
- Minimal handling
- Low operation costs
- Flexible product range
- Robust construction
- Accurate batching consistent product

Designed to produce

- Thin bed joining mortar
- Masonry mortar
- Internal cement plasters
- Internal lime plasters
- Colored decoration mortar
- External plasters
- Tiles & Slabs grouts
- Water proof plasters
- Weather proof plasters
